Profile

Staff engineer, eleven years in. I build full agentic AI products — from the design system up to the streaming chat. Most recently Talos at Axiamatic: a chat workspace with artifacts, design mode, and live previews. I care about the person who reads the code next.

Work Experience

Nov 2022 — Present
Axiamatic
Bangalore

Staff Engineer — Frontend

- Built Talos, our full agentic chat web app on the claude-code-typescript SDK — artifact generation, design mode, and live previews for whatever the agent builds.
- Shipped Talos as a micro-frontend inside Axiamatic UI so customers get the full chat experience without ever leaving the SaaS product.
- Hunted down memory leaks in long-lived Talos sessions and clawed back the perf — profile, fix, ship, repeat until the numbers made sense.
- Designed the Axm Design System MCP and wired it in as a skill the LLM calls, so every artifact Talos generates matches our design system on the first try.
- Migrated the real-time chat agent onto the AI-SDK streaming framework — responses feel instant now.

Jan 2017 — Nov 2022
Media.Net (Directi)
Bangalore

Senior Web Application Developer — Module Lead

- Built the Pub Ad-Quality dashboard on React, Redux Toolkit, Styled Components, and Grommet — full multi-theming from day one.
- Led a Next.js migration using SSG, ISR, and SSR where each actually made sense.
- Drove the CWV program: FCP 5.1s → 0.2s, LCP 13.7s → 3.2s on the Pub dashboard.
- Ran bi-weekly dev syncs and mentored three engineers into senior roles.

May 2016 — Jan 2017
Onlinemocks Pvt. Ltd.
Gurgaon

Senior Web Application Developer

Owned the web mock-test portal end-to-end — built it from zero and tuned it to hold up as the template library grew.

Oct 2015 — May 2016
Collegedunia Web Pvt. Ltd.
Delhi

Software Engineer — Frontend

Shipped the core college-listing pages, then took on a full revamp of zoutons.com and the admin tooling that went with it.

Jul 2014 — Sep 2015
Rising Hues Technologies LLP
Lucknow

Software Engineer — Frontend

First job out of college. Built marketing sites and internal tools end-to-end with HTML5, CSS3, and vanilla JavaScript.

Education

2010 — 2014
UPTU
Lucknow, India

B.Tech — Information Technology

Formal CS foundations — and where I started shipping real web apps.

Skills

Frontend

- React
- TypeScript
- Next.js
- Tailwind
- Node.js
- Storybook

AI & tooling

- Claude SDK
- MCP
- AI-SDK
- Vite / Webpack
- Jest
- Figma
